The screenshot shows the IBM Watson Assistant web interface. The top navigation bar includes 'IBM Watson Assistant Lite', 'Upgrade', and 'HOSPITAL BOT'. The left sidebar contains a menu with 'Actions', 'Variables', and 'Saved responses'. The 'Actions' section is expanded, showing a table of actions created by the user. The table has columns for Name, Last edited, Examples Count, and Status. One action named 'Hello' is listed, created 5 minutes ago with 2 examples and a green status icon. A 'New action' button is in the top right of the table. At the bottom, there are pagination controls showing '1 of 1 pages' and a 'Preview' button.

Name	Last edited	Examples Count	Status
Hello	5 minutes ago	2	<span style="color: green;">●</span>

The screenshot shows a preview of a web chat interface for a virtual assistant. The chat window is overlaid on a background image of a clothing store. The chat text reads: 'Hi! I'm a virtual assistant. How can I help you today?'. Below the text are three example prompts: 'Hello', 'Example: Check account balance', and 'Example: See how I can help'. At the bottom of the chat window is a text input field with the placeholder 'Type something...' and a send button. The footer of the chat window says 'Built with IBM Watson®'. The browser's address bar shows the URL: 'web-chat.global.assistant.watson.appdomain.cloud/preview.html?backgroundImageUrl=https%3A%2F%2Fus-east.assistant.watson.cloud.ibm.com%2Fpublic...'. The system clock in the bottom right corner shows 8:55 PM on 11/8/2022.
